### Rock'n'Block

Blockchain developer (Remote)

2020 - 2022 (2 years)

Dubai, United Arab Emirates

2021 marked the year of the NFT. I helped create projects such as Degenerate Ape Academy, Mindful Degens, Happy Quokkas, which were built using Rust & Solidity smart contracts in the Ethereum, Solana, and derived from them.

- Developed NFTM on Ethereum chain using solidity and Next.js (v 12, 13).

- Over 3 projects on different blockchains, including Ethereum and other EVM compatible blockchains, Ethereum, Solana and over 5 projects related to DEXs, DeFi, DAO, GameFi, arbitrage and market maker trading bots, blockchain bridges, etc.

### Taking You Forward, Inc

SPA developer

2017 - 2020 (3 years)

Mandaue City

- Optimized application performance by 37%, reducing page load time and improving user experience.
- Created a single-page web application using React (15~17), Redux that enabled users to access the company's resources with ease.
- Incorporated third-party APIs into the web application for data exchange and real-time updates.
- Created a reusable component library for the web application using React(15~17) Material, resulting in faster development time for new features.

### Cebu Website Design and Internet Marketing

MVC Developer

2015 - 2017 (2 years)

Lapu-Lapu, Central Visayas, Philippines

- Utilized Laravel5 MVC to develop a web application that supported user authentication, authorization and session management.
- Ruby on Rails (4, 5 ) projects that increased developer productivity and code reuse
- Complex web application with a custom MVC architecture that met the project's security, scalability, and performance requirements using Laravel5, Bootstrap3 and JQuery.

---

## Education

New Era University, Quezon City

Bachelor of Science - BS, Computer Science · (2009 - 2014)
